Books

- **Mastering Embedded Linux Programming, 4th Edition**[1] By Frank Vasquez, Chris Simmonds, Packt Publishing, May 2025 An up-to-date resource covering most aspects of embedded Linux development.
- **The Linux Programming Interface**[2] Michael Kerrisk (maintainer of Linux manual pages), 2010, No Starch Press A gold mine about Linux system programming

[1] https://www.amazon.com/dp/1803232595

Web sites

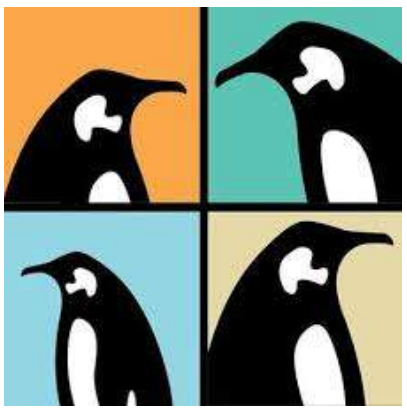

- **ELinux.org**, https://elinux.org, a Wiki entirely dedicated to embedded Linux. Lots of topics covered: real-time, filesystems, multimedia, tools, hardware platforms, etc. Interesting to explore to discover new things.
- **LWN**, https://lwn.net, very interesting news site about Linux in general, and specifically about the kernel. Weekly edition, available for free after one week for non-paying visitors.

International conferences (1)

- Embedded Linux Conference:
  - https://embeddedlinuxconference.com/
  - Organized by the Linux Foundation every year in North America and in Europe
  - Very interesting kernel and user space topics for embedded systems developers. Many kernel and embedded project maintainers are present.
  - Presentation slides and videos freely available on https://elinux.org/ELC_Presentations
- Linux Plumbers
  - https://lpc.events/
  - About the low-level plumbing of Linux: kernel, audio, power management, device management, multimedia, etc.
  - Not really a conventional conference with formal presentations, but rather a place where contributors on each topic meet, share their progress and make plans for work ahead.

International conferences (2)

- FOSDEM: https://fosdem.org
  - Brussels (Belgium), February
  - Community-oriented conference, free, during the week-end
  - Many *developer rooms*, including on low-level, embedded and hardware topics
- Embedded Recipes: https://embedded-recipes.org
  - Nice (France), May
  - 2-day conference about all embedded Linux topics
  - Well attended by known contributors
  - Very affordable conference, thanks to sponsors (like Bootlin).
- Most conferences are now also accessible on-line, which makes them much more affordable.
