Beaglebone Black / Beaglebone black wireless shopping list

- BeagleBone Black or BeagleBone Black Wireless, from BeagleBoard.org
  - Texas Instruments AM335x (ARM Cortex-A8 CPU)
  - 512 MB of RAM
  - 4 GB of on-board eMMC storage
  - Plenty of peripherals and features
  - 2 x 46 pins headers, with access to many expansion buses (I2C, SPI, UART and more)
- MicroUSB cable
- USB Serial Cable - 3.3 V - Female ends (for serial console)[1]
- Nintendo Nunchuk with UEXT connector[2]
- Breadboard jumper wires - Male ends (to connect the Nunchuk)[3]
- MicroSD card

STM32MP157 shopping list

- Discovery Kits from STMicroelectronics: STM32MP157A-DK1, STM32MP157D-DK1, STM32MP157C-DK2 or STM32MP157F-DK2[1]
  - STM32MP157 (Dual Cortex-A7 + Cortex-M4) CPU
  - 512 MB DDR3L RAM
  - Plenty of peripherals: GPIOs, SPI, Serial, USB, Ethernet...
- MicroUSB cable (to access serial console)
- USB-C to USB-A cable (to power the board)
- Nintendo Nunchuk with UEXT connector[2]
- Breadboard jumper wires - Male ends (to connect the Nunchuk)[3]
- MicroSD card
- RJ45 cable

[1] Boards documentation: A-DK1, D-DK1, C-DK2, F-DK2

BeaglePlay shopping list

- BeaglePlay, from BeagleBoard.org
  - Texas Instruments AM625x (4×ARM Cortex-A53 CPU)
  - 2 GB RAM
  - 16 GB of on-board eMMC storage
  - Peripherals: SPI, I2C, UART, USB...
- USB-C cable for the power supply
- A USB-FTDI cable
- RJ45 cable for networking
- A micro SD card with at least 2G of capacity
- Nintendo Nunchuk with UEXT connector[1]
- Breadboard jumper wires - Male ends (to connect the Nunchuk)[2]

IMX93 FRDM shopping list

- NXP i.MX93 11x11 FRDM board (76 EUR + VAT on Mouser)
  - NXP i.MX93 (Dual ARM Cortex-A55 + Cortex-M33)
  - 2 GB LPDDR4
  - 32 GB of on-board eMMC storage
  - Plenty of peripherals: I2C, SPI, UART, USB...
- 2 USB-C cable for the power supply and the serial console
- RJ45 cable for networking
- MicroSD card
- Nintendo Nunchuk with UEXT connector[1]
- Breadboard jumper wires - Male/Female ends (to connect to Nunchuk)[2]

Training quiz and certificate

- To get your training certificate you must
  1. Attend all sessions of this training course
  2. Achieve more than 50% of correct answers at our final quiz
     - The final quiz questions are identical to the pre-training quiz
     - The final quiz must be completed within two weeks of the session end's date
- The training certificate will be sent to you two weeks after the session end's date.

Participate!

During the lectures...

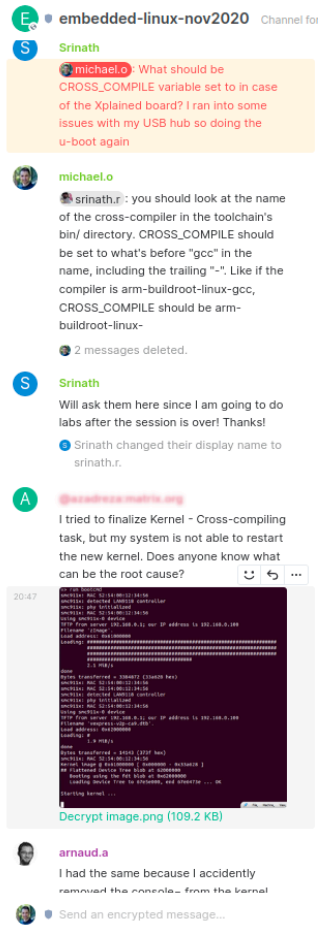

- Don't hesitate to ask questions. Other people in the audience may have similar questions too.
- Don't hesitate to share your experience too, for example to compare Linux with other operating systems you know.
- Your point of view is most valuable, because it can be similar to your colleagues' and different from the trainer's.
- In on-line sessions
  - Please always keep your camera on!
  - Also make sure your name is properly filled.
  - You can also use the "Raise your hand" button when you wish to ask a question but don't want to interrupt.
- All this helps the trainer to engage with participants, see when something needs clarifying and make the session more interactive, enjoyable and useful for everyone.

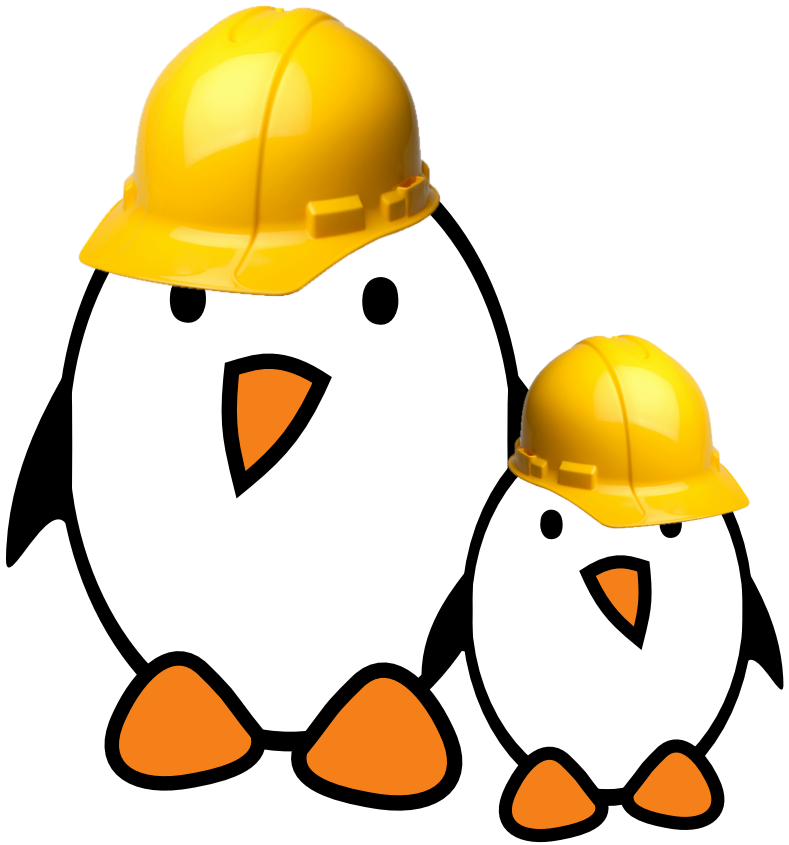

Collaborate!

As in the Free Software and Open Source community, collaboration between participants is valuable in this training session:

- Use the dedicated Matrix channel for this session to add questions.
- If your session offers practical labs, you can also report issues, share screenshots and command output there.
- Don't hesitate to share your own answers and to help others especially when the trainer is unavailable.
- The Matrix channel is also a good place to ask questions outside of training hours, and after the course is over.

Practical lab - Training Setup

Prepare your lab environment

- Download and extract the lab archive
